TWO-YEAR INDEX

Volumes 10 and 11, 1978–1979

Author Index

Abruzzi, L. A. See Clancey, J. K., 10:24
Adelstein, W. Brain stem injuries, 10:112
Anderson, B. J. Anti-diuretic hormone: balance and imbalance, 11:71
Apfelbaum, R., Kirk, M., and Terra, A. M. Microvascular decompression of the trigeminal nerve for the treatment of trigeminal neuralgia, 10:77

Ball, M. Nurse or mortician, 10:66
Bartol, G. Psychological needs of the spinal cord injured person, 10:171
Beeken, J. E. Body image changes in plegia, 10:20
Belber, C. J. See Kimball, C. D., 11:144
Bell, M. Editorial, 10:85, 11:1, 11:133, 11:189
Bell, M., and Rekate, H. L. Cerebrospinal fluid dynamics, 10:46
Booth, K. See Mohl, P. C., 11:114
Borchers, J. See Potter, D., 11:74
Bowens, B., and Rodgers, T. Patient care planning through the phases of hospitalization, 11:48
Breeding, P. See Hebert, P., 11:118
Bucy, P. C. Guest editorial, 10:141
Bucy, P. C. American Association of Neurosurgical Nurses and the pyramidal tract, 10:144
Burry, M. The decerebrate patient, 11:6

Calvin, R. P. Quiz yourself on cranial nerve function, 10:33
Calvin, Richard P. Presidential message, 11:190
Cantrell, C. M. Doesn't anyone hear me crying?, 10:202
Clancey, J. K., and Abruzzi, L. A. Nursing intervention of patients with pituitary tumors, 10:24
Coker, K. E. The intermittent air-fluidized bed and the neurologically impaired patient, 11:31
Coleman, P. Antidiuretic hormone. Physiology and pathophysiology—a review, 11:199

D'Agostina, J., and Pelczynski, L. An overview of cyclotron treatment. Bragg peak proton hypophysectomy and Bragg peak radiosurgery for arteriovenous malformation of the brain, 11:208
Dolan, B. Multiple sclerosis, 11:83
Doolittle, N. Arteriovenous malformations: the physiology, symptomatology and nursing care, 11:221
Duggins, E. L., LeRoy, P. L., and Goloskov, J. W. Pneumatic applanation as a noninvasive means of intraventricular pressure measurement, 10:156
Duggins, E. L., and Terrill, L. A. The neurosurgical nursing unit: structure, staffing, and recruitment, 11:37

Felder, L. Neurogenic bladder dysfunction, 11:94
Fode, N. C., Laws, E. R., Jr., and Sharbrough, F. W. The assessment of patients with temporal lobe epilepsy: results in 38 patients treated surgically, 10:130
Fode, N. C., Laws, E. R. Jr., and Sundt, T. M. Jr. Communicating hydrocephalus after subarachnoid hemorrhage: Results of shunt procedures, 11:253
Fozzard, E. L. The psychosexual needs of the neurologically disabled, 10:92

Geist, B. See Smith, J., 11:134
Geist, B. L. See Smith, J., 10:102
Ginnity, S. W. Papilledema and pseudopapilledema: An update for the nurse practitioner, 10:74
Ginnity, S. W. Assessment of cervical cord trauma by the nurse practitioner, 10:193
Goloskov, J. W. See Duggins, E. L., 10:156
Goloskov, J. W. and LeRoy P. L. The role of the nurse in quantitative intracranial pressure determinations, 10:17
Groseclose, N. Teaching: role of the educator in neurosurgical nursing, 11:68
Groteboer, J. Stroke, carotid endarterectomy, and the neurosurgeon, 10:52

Hausman, K. A. Brain tumors in children, 10:8
Hausman, K. President's message, 10:44
Hausman, K. Presidential address, 11:65
Hawken, M. Seizures: etiology, classification, intervention, 11:166
Herbert, P., and Breeding, P. Self-care after hypophysectomy, 11:118
Hodges, L. C. Human sexuality and the spinal cord injured: role of the clinical nurse specialist, 10:125
Hubbard, J. H. See Wisoff, H.S., 11:16
Hunter, C. Nursing problems of patients undergoing aminocaproic acid treatment for subarachnoid hemorrhage due to aneurysm, 11:160

Isaacs, N. M. The treatment of acute spinal cord injury using local hypothermia, 10:95

Jacobs, G. B. See Wisoff, H. S., 11:16
Jones, C. Monitoring recovery after head injury. Translating research into practice, 11:192
Jones, C. C. Asepsis in pulmonary care: improving old traditions, 11:76
Jones, P. Psychiatric liaison nurse for neurosurgery: an innovative approach to management of chronic pain, 10:160

Subject Index

Administration, neurosurgical nursing unit, 11:37
Abstract application blank, 11:187
Adrenocorticotropic hormone, neuroendocrine effects, 11:105
Agents, water soluble, in myelography, 10:189
Aggression, physiology of behavior, 11:10
Alcoholic, chronic, cerebral trauma in, 10:121
American Association of Neurosurgical Nursing
  annual meeting, 1979, scientific program, 11:61
  board of directors, 11:53
  committee chairpersons, 11:54, 11:121
  history, 10:146
American Board of Neurosurgical Nursing, certification examination candidates, 11:127, 11:257
Aminocaproic acid, as fibrinolysis inhibitor, 11:160
Aminophylline-isuprel in management of cerebral vasospasms, 10:63
Analgesics, pharmacology of, 10:180
Aneurysm, aminocaproic acid in treatment for subarachnoid hemorrhage, 11:160
Announcements, 10:38, 10:139, 10:206, 11:59, 11:131, 11:185, 11:258
Anticonvulsants, clinical evaluation, 11:238
Antidiuretic hormone, physiology and pathophysiology, 11:199
Applanation, pneumatic, intraventricular pressure measurement, 10:156
Arteriovenous malformation
  cyclotron treatment, 11:208
  physiology, symptomatology, nursing care, 11:221
Artery, cerebral, vasospasm, 11:171
Asepsis in pulmonary care, 11:76
Atherosclerosis, 10:52
Autonomic nervous system, syringomyelia effect, 11:134

Barbiturate therapy, in intracranial hypertension, 11:144, 11:247
Behavior, aggressive, physiology of, 11:10
Bladder dysfunction, neurogenic, 11:94
Body image
  definitions, 10:20
  in disability, 10:92
Book reviews, 10:36, 10:83, 10:136, 10:205, 11:257
Bragg peak proton beam hypophysectomy and radiosurgery, 11:208
Brain
  death, determination by pulsatile echoencephalography, 10:150
  tumors, in children, 10:8
Brain stem injuries, evaluation in, 10:112

Cancer, role of neurosurgical nurse, 10:176
Care planning, through phases of hospitalization, 11:48
Carotid endarterectomy, stroke, the neurosurgeon, 10:52
Central nervous system trauma, emergency management, 10:185
Cerebrum
  arterial vasospasm, treatment, 11:171
  blood flow, 10:52
  catheter reservoir, intracranial pressure determinations, 10:17
  cessation of function, 10:150
  death, in children, family reaction, 10:66
  trauma in chronic alcoholic, 10:121
  vasospasms, aminophylline-isuprel and, 10:63
Cerebrospinal fluid dynamics, 10:46
Cervical cord trauma, neurological assessment, 10:193
Cervix, stabilization in fractures, 11:34
Chemoreceptors, central and peripheral, respiratory, 10:68
Clinical nurse specialist and sexual rehabilitation of acutely spinal cord-injured patients, 10:125
Coma patient, long term, psycho-social aspects of care, 11:235
Computerized tomography: *see* tomography
Craniotomy
  acute, evaluation and care, 10:102
  patient, operating room care, 10:49
Cyclotron treatment, 11:208

Death
  cerebral, family reaction, 10:66
  emotional implications, 10:198
Decerebrate rigidity, management of, 11:6
Dehydration, treatment in neurosurgery, 11:141
Depression, in spinal cord injured, 10:171
Diagnosis, computerized tomography, 11:41
Disc herniation, comprehensive nursing care, 10:86
Diuresis, antidiureses, regulatory mechanism of hormone, 11:71
Drug stop
  Cimetidine, 11:183
  Lioresal, 10:205

Echoencephalography, pulsatile brain death determination by, 10:150
Editorial, 10:85, 10:141, 10:150, 11:1, 11:133, 11:189
Education, teaching role in neurosurgical nursing, 68
Electrode, implant, in chronic pain patient, 11:215
Endarterectomy, carotid, stroke, the neurosurgeon, 10:52
Epilepsy
  drug therapy, 11:238
  etiology and treatment, 11:166
  nurse specialist, 11:238
  psychosocial aspects, 11:242
  temporal lobe,
    assessment of surgical intervention in, 10:130
    telemetry monitoring, 11:227
Examination, neurologic

in central nervous system trauma, 11:148
in cervical cord trauma, 10:193
Excitatory-inhibitory system, 11:6
Extended life support, 10:66
Eye, anatomical structure, 10:166

Fluid, body, regulatory mechanism of antidiuretic hormone, 11:711
Forms, standard patient care plan, 11:48
Fracture, dislocation, cervical, 11:34
Furosemide, dehydrating agent in neurosurgery, 11:141

Galveston Orientation and Amnesia Test (GOAT), 11:192
Glascow coma scale
level of consciousness, 11:192
response chart, 10:185
Glycerol, dehydrating agent in neurosurgery, 11:141

Hemorrhage
subarachnoid
aminocaproic acid treatment, 11:160
result of shunt procedure, 11:253
Hormone
adrenocorticotropic, adrenocorticotropic 4–10, melanocyte stimulating, 11:105
antidiuretic, physiology and pathophysiology, 11:199
replacement after hypophysectomy, 11:118
Hydantoins, Quiz, 10:204
Hydrocephalus after subarachnoid hemorrhage, 11:253
Hypertension, intracranial, barbiturate therapy, 11:247
Hypophysectomy, hormone replacement in, 11:118
Hypothalamus, role in regulation of body water, 11:71
Hypothermia, local, in acute spinal cord injury, 10:95

Immobility, in the neurologically impaired patient, 11:31
Index
author, 10 yr., 10:209
subject, 10 yr., 10:214
Intracranial hypertension, barbiturate therapy, 11:144
Intracranial pressure
assessment, 10:102
determinations, quantitative, 10:17
Intraventricular pressure, measurement, 10:156

Laminectomy, 10:86
Learning ability, prognosis, in aptokinetic nystagmus, 11:205
Liaison nurse, in neurosurgical team, 10:160
Limbic system, structure and function, 11:10
Lumbar disc, ruptured, comprehensive nursing care, 10:86

Mannitol, dehydrating agent in neurosurgery, 11:141
Microscope, surgical binocular, design and optical principles, 10:1
Microvascular decompression, in treatment of trigeminal nerve neuralgia, 10:77
Micturition, anatomy and physiology involvement, 11:94
Multiple sclerosis
etiology, 11:83
etiology, diagnosis, 11:176
update and review, 11:44

Myelogram, with water-soluble media, 10:189
Myelography, contrast agents, 10:189
Myelopathy, 11:16

Narcotics, in pharmacology, 10:180
Nerve, cranial, neuroma, 11:25
Neurologic assessment
in trauma, 11:2
part of the nursing game, 10:13
Neurologically disabled, psychosexual needs, 10:92
Neuroma, acoustic, cranial nerve involvement, 11:25
Nurse clinician, role in nursing practice, 11:156
Nurse-coordinator, role in neurosurgical practice, 11:74
Nursing care plan, in multiple sclerosis, 11:83

Obituary, Helena Kryk, 11:129
Oncology and the dying patient, 10:176
Operating room care, craniotomy patient, 10:49
Optic disc, papilledema and pseudopapilledema, 10:74
Optokinetic nystagmus, assessing prognosis, 11:205

Pain, chronic, surgical intervention, 11:215
Papilledema, 10:74
Peptide, hypothalamic-pituitary, neuroendocrine effects, 11:105
Personnel, organization, staffing and recruitment, 11:37
Pharmacology of analgesics, 10:180
Photography, polaroid, documenting findings, 11:173
Pituitary
adenomas, Bragg peak proton beam of stereotactic neurosurgery, 11:208
gland, steroid replacement after hypophysectomy, 11:118
tumors, nursing intervention, 10:24
Plegia, effect on body image changes, 10:20
Presidential address, 10:41, 11:65
Presidents message, 10:44, 11:190
Primary nursing, implementation in the neurosurgical unit, 11:21
Pseudopapilledema, 10:74
Pulmonary infection, nosocomial, 11:76
Puzzle, 11:130, 11:184
Pyramidal tract, function of, 10:144

Quiz
cranial nerve function, 10:33
Quiz, on the Hydantoins, 10:204

Recovery monitoring, after head injury, 11:192
Respiration
chemoreceptors of, physiology and nursing implications, 10:68
Respiration,
maintenance in neurolgically disabled, 11:2

Scan, CAT, in diagnosis, 11:41
Seizures, metabolically induced, 11:166
Sexuality
in neurologically disabled, 10:92
spinal cord-injured and, 10:125
Social care, long-term comatose patient, 11:235

Spinal cord
arteriovenous malformation, 11:16
injury
acute
local hypothermia, treatment of, 10:95
team approach to, 10:117
experiences and nursing intervention, 10:29
multidisciplinary approach in rehabilitation, 10:171
Stroke, carotid endarterectomy, the neurosurgeon, 10:52
Subarachnoid hemorrhage, two phases of hydrocephalus, 11:253
Suction, the nonintubated patient, 11:76
Syringomyelia, diagnosis and treatment, 11:134

Teaching, in neurosurgical nursing, 11:68
Team approach, in treatment of acute phase spinal cord injury, 10:117
Telemetry program temporal lobe epilepsy monitoring, 11:227
Tic douloureux, 10:77
Tomography, computerized, patient preparation, 11:41
Trauma
central nervous system, neurologic examination, 11:148
cerebral, in chronic alcoholic, 10:121
Trigeminal nerve neuralgia, microvascular decompression in treatment of, 10:77
Tumor
brain
in children, 10:8
personal experience, 10:202
pituitary, anatomy and physiology, 10:24

Ulcer, decubitus, prevention, 11:31
